KAFKO
POOL PRODUCTS

SeaGlass Pools

Standard of Quality

- Manufacturer of quality liners since 1971, over 40 years of quality.
- Kafko offers premium pool liners designed to withstand harsh environments.
- Kafko vinyl is manufactured with bleach resistant inks and UV inhibitors to protect against fading and sun damage.
- Liners are equipped with algae inhibitors, which aid normal sanitizers to protect Kafko liners for a long life.
- Available in 20 gauge and 30 gauge. Also available as 30/20 blend, only if pattern is offered in 20 gauge and 30 gauge.
- Kafko True-Fit liners are manufactured under strict Quality Control Procedures to ensure exact fit.
- Available in a wide array of styles and custom designed shapes.
- New or replacement liners are available; restyle your backyard!

All Kafko prints are copyright and industrial patent design protected.

Color of material may vary. Ask to see an actual sample.

Seam lines are more visible on patterns that are printed on white base material.

Certain patterns may be exclusive to geographic locations.

Visit our Vinyl Visualizer at www.kafko.com to see how your pattern will look in water and for a complete description of all our product offerings.

MAXimum
Durability

30 Gauge

Look for this symbol on choice patterns for MAXimum durability.

SuperMax™ liners are designed to address the harsh winter weather cycles of freezing and thawing in the north and strong Ultra-violet rays in the south that can adversely affect a pool's surface. These select patterns use 30 gauge thickness of the material to provide MAXimum toughness so you can enjoy MAXimum carefree enjoyment.
